

Assignments

PST 315: Methods of Policy Analysis and Presentation

Prof. Jack Reilly

F2026

Hello and welcome to the assignments page for our course. All assignments are posted here, and each one is due **Friday** of the week listed.

Note that, while you can find assignments here, submission itself goes through the [course Blackboard](#) — with one exception, the Project Application, which is submitted through a Qualtrics link.

For how assignments are weighted, how group projects are handled, and the late policy, see [Logistics](#).

Each assignment page carries its instructions, any templates you need to download, and the **Guidelines** that apply to it. Guidelines appear under the assignment where they are first needed; later assignments link back to them.

i Still to come

The Project Application and the two Excel workshops will be posted closer to their due dates.

Getting Started

Assignment	Due	Points
Project Application	Week 1 (Aug 28)	2
